PURSHE KAPLAN STERLING INVESTMENTS, INC.
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007 AND 2006

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Purshe Kaplan Sterling Investments, Inc. (the "Company") is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

NATURE OF OPERATIONS

The Company is a broker/dealer of securities registered under the Securities Exchange Act of 1934. The Company clears all of its customers' transactions through National Financial Services, LLC, ("NFS") another registered broker/dealer, on a fully disclosed basis. The Company increased the amount deposited with National Financial Services, LLC to \$ 75,000 during 2006 pursuant to its clearing agreement.

The Company also introduces transactions for another broker/dealer through NFS under a sub-clearing agreement which provides, among other terms, that the Company hold a \$ 10,000 sub-clearing deposit.

The Company is a wholly-owned subsidiary of PKS Holdings, LLC (the "Parent Company", a New York State limited liability company).

METHOD OF ACCOUNTING

Revenues and related broker expenses are recorded on a trade date basis.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investment instruments purchased with a maturity of three months or less to be cash equivalents. Money market fund cash balances are included as cash and cash equivalents.

USE OF ESTIMATES

The process of preparing financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the recorded amounts of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

COMPENSATED ABSENCES

Compensated absences are paid as incurred on an annual basis and do not carry over to future years. Accordingly, no accrual for such costs has been made in these statements.

INCOME TAXES

The provision for income taxes includes the tax effects of transactions reported in the financial statements and consists of taxes currently due plus deferred taxes. Deferred taxes are recognized for differences between the basis of assets and liabilities for financial statement and income tax purposes. This accounting policy reflects the application of Statements of Financial Accounting Standards (SFAS) No. 109, "Accounting for Income Taxes".

The Company provides for income taxes using the applicable statutory rates. The components of income taxes for the years ended March 31, 2007 and 2006 are as follows:

| | <u>2007</u> | <u>2006</u> |
|---------------------|------------------|------------------|
| Current tax expense | <u>\$ 10,526</u> | <u>\$ 13,362</u> |

The Company does business in most states within the United States and accordingly, pays a minimum tax to each of them.

(5) RELATED PARTY TRANSACTIONS

The Company pays its Parent Company fees to cover management costs. The total fees charged to the Company amounted to \$ 323,278 and \$ 217,500 in 2007 and 2006, respectively. The unpaid portion of these costs amounted to \$ -0- and \$ -0- in 2007 and 2006, respectively.

Registered securities representatives who are associated with Purshe Kaplan Sterling Investments have the option of coverage under the policy and accordingly share in the cost.

(6) LITIGATION

MARCH 31, 2007 AND 2006

(7) LIABILITIES SUBORDINATED TO CLAIMS OF CREDITORS

In September, 2005, the Company borrowed \$ 150,000 from its parent company. The note and its related terms, which include interest at the annual rate of 15%, were found acceptable by the National Association of Securities Dealers as a satisfactory subordination agreement. Accordingly, the note amount is allowed as net capital in the computation described in Note (8).

(8) NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the Company to maintain a minimum net capital of \$ 5,000. Additionally, aggregate indebtedness can not exceed 1500% of net capital.

| | <u>2007</u> | <u>2006</u> |
|---|-------------------|-------------------|
| Computed net capital, including subordinated note | \$ <u>361,775</u> | \$ <u>301,897</u> |
| Aggregate indebtedness, excluding subordinated note | <u>180%</u> | <u>144%</u> |

The Company is exempt from Rule 15c3-3 under subsection (k). Under this exemption, the "Computation for Determination of Reserve Requirements" and "Information Relating to the Possession or Control Requirements" are not required.

The Company is under contractual obligation with its clearing broker to maintain net capital of \$ 250,000 for both 2007 and 2006. Lines of credit with a principal stockholder of the Company's Parent are in place to assure compliance with this requirement.

(9) FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET CREDIT RISK

The activities of the Company's customers are transacted on either a cash or margin basis through the facilities of its clearing broker. In margin transactions, the clearing broker extends credit to the customers, subject to various regulatory and margin requirements, collateralized by cash and securities in the customer's account. In connection with these activities, the clearing broker may also execute and clear customer transactions involving the sale of securities not yet purchased.

These transactions may expose the Company to significant off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses which the customers may incur. In the event the customers fail to satisfy their obligations to the clearing broker, the Company may be required to compensate the clearing broker for losses incurred on behalf of the customers.

The Company, through its clearing broker, seeks to control the risk associated with its customers' activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The clearing broker monitors required margin levels daily and, pursuant to such guidelines, requires the customers to deposit additional collateral, or reduce positions, when necessary.

INDEPENDENT AUDITORS' REPORT ON INTERNAL ACCOUNTING
CONTROL REQUIRED BY SEC RULE 17a-5

Board of Directors
Purshe Kaplan Sterling Investments, Inc.
Albany, New York

In planning and performing our audits of the financial statements of Purshe Kaplan Sterling Investments, Inc. (the "Company") for the years ended March 31, 2007 and 2006, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g) (1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions required by Rule 15c3-3. Our study revealed that Purshe Kaplan Sterling Investments, Inc. was in compliance with the conditions of the exemption and that no facts came to our attention indicating that such conditions had not been complied with during the period. We did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and establishing the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at March 31, 2007 and 2006, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
